

Proarc ProView

Viewer | Markup | PDF Conversion | Comment Sheets

Proarc ProView

With Proarc ProView add-ons, teams designing, constructing, and maintaining large capital assets can efficiently view numerous supported file types directly from the Proarc EDMS via a web-based viewer.

In addition, ProView allows team members to apply concurrent annotations to PDF renderings and see the markups provided by others displayed consistently across web, desktop, or mobile as they are added.

Proarc ProView Benefits

Proarc ProView provides the following benefits:

Reduce Bottlenecks & Increase Productivity

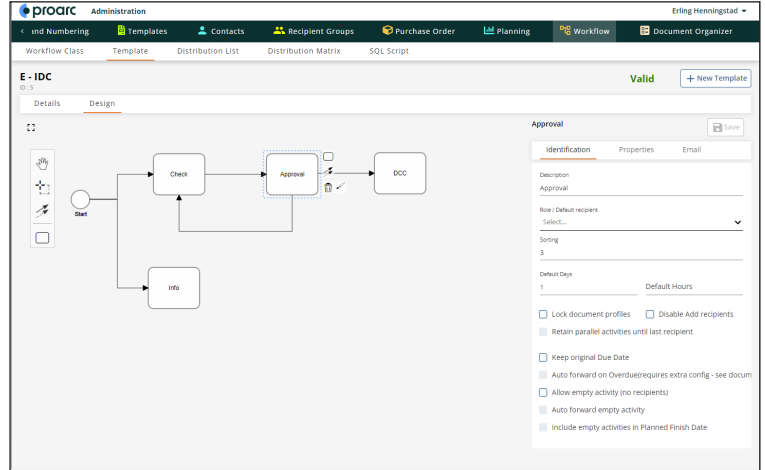

- Provide global real-time view & markup capabilities for numerous document formats from an inline, web-based viewer
- Provide accurate & reliable high-performance PDF rendering
- Annotate, sign, and stamp PDF files without leaving Proarc
- View annotations from Proarc without opening the document
- View and markup files from the field with mobile application

Improve Review Quality & Clarity

- Enable users to provide contextual markup of documents and drawings directly from workflow activities
- Classify and consolidate comments
- Automatically generate markup comment sheets for clients and suppliers

Reduce Collaboration Risk & Cost

- Keep review and collaboration activities secure within your Proarc document management system
- View numerous file formats from a web-based viewer without installing the native software that created the file

Provide contextual markups directly from workflow activities

ProView Comment Sheets in Proarc EDMS

Core Capabilities

Proarc's ProView add-ons include ProView Viewer, ProView Markup, ProView PDF Conversion, and ProView Comments Sheets.

PROVIEW VIEWER

High Performance Inline Viewing

Quickly render numerous file types, no matter how complex, for fast, high-quality inline viewing across web, desktop, and mobile.

Extensive File Support

All common file types supported including AutoCAD design software.

Exceptional Viewing Controls

Zoom, rotate, overlay, Quickviews, multiple and split windows, thumbnail and preview support, view selection, bird's eye view, magnifying cursor, layer control, pen table manipulation, and watermark printing.

Measurement & Calibration Tools

Measurement, snap point, ortho, etc. for take-off measurements on drawing file.

Optimized for Mobile

Get all view and markup capabilities optimized for mobile screens including touch screens.

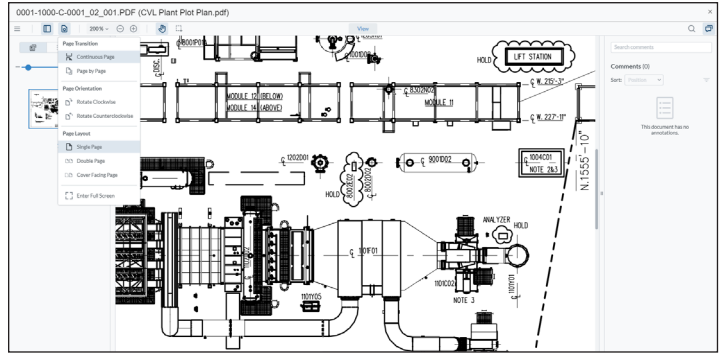

Password-Protected PDFs:

Password-protected PDF files can be viewed in ProView (users will be prompted for the password to access it)

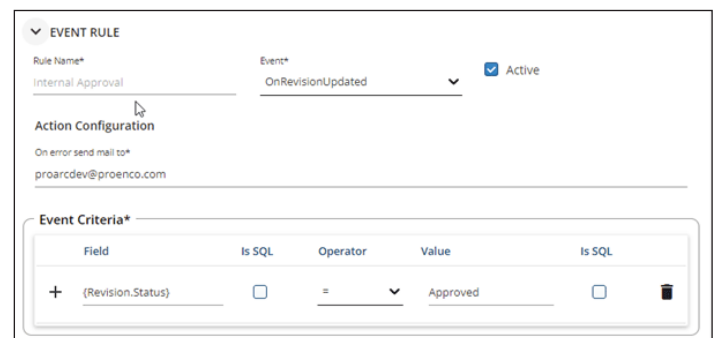

PROVIEW PDF CONVERSION

PDF Generation

Automatically convert files with associated markups to a PDF file for printing, emailing, and distribution. Supports Microsoft Office, AutoCAD, and common image formats. Convert files on demand or based on a configurable rule.

View numerous file formats without installing additional native software

Trigger automatic PDF conversions based on events or rules

Core Capabilities

PROVIEW MARKUP

Multiple Markup Types

Annotations and markup options include links, notes, drawing tools, e-signatures, etc.

Individual User-Attributed Markup Elements

Markups attributed to users and can be filtered by user.

Real-Time Collaboration

Concurrent markups allow multiple users to add comments simultaneously.

Advanced Contextual Markups from Workflows

Access ProView from workflow activities to add markups to files for added context as opposed to adding comments to a separate workflow form field.

Distinct Annotations & Markup

Markups are managed independently and stored in Proarc as comments separate from, but associated with, the file being reviewed.

Configurable Dynamic Stamps

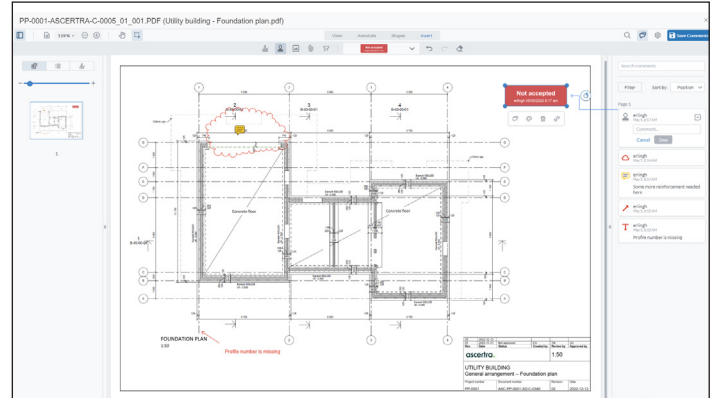

Use flexible custom and user-defined stamps to meet clients' unique requirements.

Markup Consolidation

Markup from multiple users can be gathered into one consolidated level.

Audit History

A record of all markup activities is stored in Proarc.

ProView allows for concurrent commenting and collaboration on engineering markup sessions

Core Capabilities

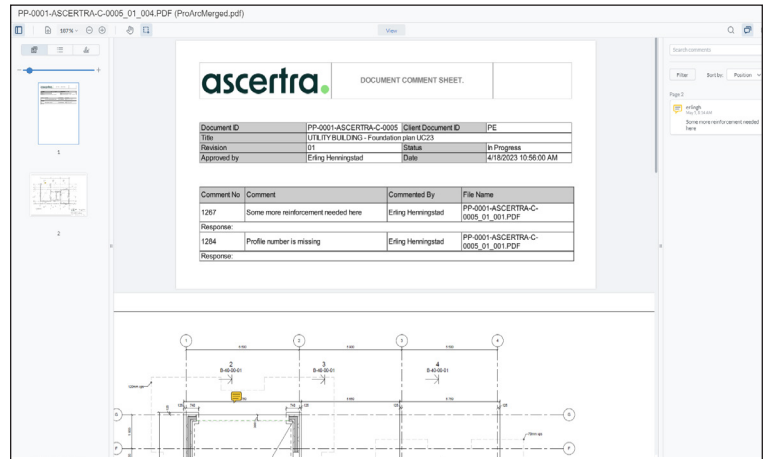

PROVIEW COMMENT SHEETS

Comment Sheets

Automatically generate PDF files with all document comments, plus the marked-up PDF source file and a generated table of contents on the first page. PDF files are automatically imported to the DMS repository at the correct revision for record keeping.

Imported Comments

Imported comments included on imported PDFs maintain the original author for annotations and can be mapped to existing Proarc users. External comments can be configured to be automatically included or excluded from the Proarc comments list. These comments will still be visible in ProView or external PDF viewers. Downloaded PDFs include comments added in Proarc.

Proarc enables the automatic creation of markup comment sheets to share with clients and suppliers

Ascertra - Information Powers Progress

Reliable information is the center point of successful capital projects and asset operations. Ascertra software ensures teams always have reliable information and documents to design, construct, and operate complex assets.
